28
29
30 Interest Day
St 1- M’ville
St 2- The Chan
St 3- Dunoon

Principals Report

Because of the great participation shown by all students at Whian Whian, another trophy has found its way to us. The Cross country trophy is sitting next to the swimming trophy for this year. Congratulations to every single boy and girl who did their best.

Students this week have been completing the NAPLAN testing. Only Year 3 & 5 have their tests sent away for marking but all students from year 2-6 complete as part of our school assessment and to give them exposure to the process. Our students take the test in their stride and there has been no sign of the stress I hear about at some other schools, on the news.

Maths in years 3-6 this week is to do with measuring volume, capacity and Mass. Next week we will be working on using time.

K / 2 Maths

We are looking at Measurement and Time in Maths for the next two weeks.

K’s will be comparing and ordering lengths and heights of different objects, and also learning about o’clock times on analogue and digital clocks.

Yr 2’s will be practicing measuring accurately using centimetres and estimating answers, revising digital and analogue clocks as well as
carnival next Friday the 23rd of May, to be held at Corndale again. We all wish you the best of luck and hope you have a successful race.

Congratulations also to Amalia, Ja and Alex who have qualified for the zone Cross Country carnival next Friday the 23rd of May, to be held at Corndale again. We all wish you the best of luck and hope you have a successful race.

Tuckshop This week - Annie
Next week - Kate

Don’t forget your piece of fruit and 50c for recess and money for lunch

Fruit Break 10am daily - each child can bring a piece of fruit.

Wide brimmed red hats available for $8 from school
comparing the time that different activities take to the closest second, minute and hour.

Indonesian lessons will begin on the first week of term 3. It is the plan to conduct these lessons each Friday for the term with a view to continuing indefinitely. This looks exciting and the P & C has seen it as a program well worth supporting.

This Friday all students will be travelling to Tullera Hall to join neighbouring schools in the Brainstorm performance. These performances are always entertaining and teach the children lots about dealing with social issues like cyber safety and safety in general, as well as making and keeping friends.

On Monday we will have a concert at Dunoon. This is the culmination of the Musica-viva program for this year. Students should wear their brightest coloured casual clothes.

Next Wednesday our Year 6 students will be joining other students from neighbouring schools in the Green team at Dorroughby Environmental Education centre. This has been a popular program based on sustainability in the past and is growing in popularity.

Dr Nathan dropped in this morning and threatened to conduct another Science session on next Tuesday the 20th of May.

Miss O’Neill will be at the regular professional learning day next week.

We are expecting a visit from the local leader of the Jump rope for heart program on the 27th of May. We will continue this program for the rest of the term on a regular basis.

On the 30th of May, all students from the Dunoon district will be participating on our annual Interest day. A permission note will arrive home soon. I think we have all transport covered, but we will confirm that in the near future.

Lisa is going to buy some new fruit trees for the orchard.

All the kids have been mulching the fruit trees. Any old egg cartons can be dropped at school so the children can use them to plant seeds for the garden as well.

And finally, the weather shed roof will be replaced during the next couple of months. Thanks to the P & C for funding this work and to Graeme for doing all the hard work. Please stay well clear while work is underway.

4 reasons to send snow peas for Crunch&Sip
1. Kids love their crunchy texture and sweet flavour
2. They are a source of iron, protein and potassium
3. They don’t bruise easily
4. They make an exciting change for Crunch&Sip
